**Activities:**

Dolphins. Keep your eyes open if you're on the beach at dusk or dawn. We very often see dolphins swimming right off shore. If the dolphins come in close, which they do occasionally, do not get in the water and try to touch them. It is illegal to touch the dolphins (we humans have germs that harm the dolphins).

Kayak. A fun, inexpensive thing to do is to rent the ocean kayaks off the beach. Morning is usually the best time, when the waters are generally calmer. The kayaks are very easy to maneuver and it's only around \$15/hour.

**Advice:** Over the past few years, there have been some ocean-related deaths along the gulf coast. Please pay attention to the flags on the beach. If there is a RED FLAG do NOT swim. The rip tides (rip currents) have been very strong. If you by chance do get caught in a rip tide, swim parallel to the beach. The Resort does NOT have lifeguards.

And one last precaution: sharks are in the gulf. I have never seen any on our beaches, but I have seen them in the bay. Use common sense whenever in the water, especially in the evening (when sharks do most of their feeding).
